

Mobile Dispensaries

A feasibility report is being prepared to examine the patients and dispense medicines on the spot in far-flung areas where medical facilities are not easily accessible.

Self-Help Scheme For Widows

This project is aimed at providing independent and respectable earning to widows who are economically and otherwise suppressed in our society.

Cancer Diagnostic Labs

It is unfortunate to note that majority of full-fledged hospitals do not have proper cancer diagnostic facilities. SHADE TRUST plans to set up cancer diagnostic labs in all the major hospitals.

Computer Education Centers

SHADE TRUST plans to establish computer education centers in major cities in order to facilitate students to keep pace with ever developing research facilities around the world in IT sector.

Therapy Centers For Drug Addicts

Drug addiction is a menace to the society and our youth needs to be fully aware of its ill-effects. Cure and therapy centers will be established in major hospitals for the rehabilitation of the drug addicts initially a special team of SHADE TRUST will assist institutions already caring for handicapped and mentally retarded people. In the long run SHADE TRUST aims at setting up its own institutions for helping such cases.

TARGET LOCALITIES

Rural Areas, Neglected Urban Areas, Thickly populated Vicinities of Cities / Town and Remote Areas.

FUND RAISING PROGRAMMES

Charity shows, Fun Fairs, walks, Seminars will be regularly organized to generate funds for the accomplishment of the noble cause.

GRANTS / LOANS / DONATIONS

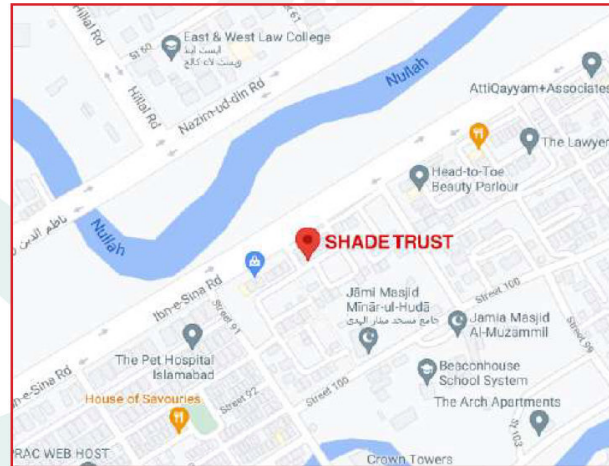

SHADE TRUST will be associated with other national and international welfare organizations to acquire support from them in respect of social/ health development programs and grants of funds.

SHADE Trust
YOU HOPE - WE SERVE

Our Motto

**The deed of charity we have done
shall stay with us forever.
Only the wealth we have
so bestowed do we keep,
the other is not ours.**

FOREWORD

We all know that Pakistan is the 5th most populous country of the world, its population has increased manifold in the last 20 years, whereas the resources have not improved proportionally. Low per capita income in Pakistan does not allow a common citizen to have proper treatment in case of a complicated disease. Realizing the gravity of the present problems a group of dynamic doctors, social activists and a few philanthropists has come forward to help the ailing humanity by providing proper treatment facilities in rural as well as neglected urban areas. The group has established an organization named as **SHADE TRUST**. We request all to join hands and spare their precious time to serve the noble cause.

AIMS & OBJECTIVES

- Free treatment for the deserving patients.
- Establishment of blood screening laboratories and blood donation units.
- Arrangement of free medical camps in rural as well as neglected urban areas on regular basis.
- Establishment of Old Age Home for the Senior Citizens
- Provision of free ambulance services for cardiac patients.
- Establishment of free dispensaries in rural & neglected urban areas.
- Establishment of cancer Diagnostic labs in all major hospitals.
- Rehabilitation of handicapped and mentally retarded persons.
- Helping to implement women welfare projects.
- Protection of the basic human rights.
- Create awareness among masses regarding STDs (Sexually Transmitted Diseases) e.g. AIDS, HEPATITIS etc.
- Apprising masses regarding menace of child labor and discouraging this in human practice all over the country.
- Educating masses in rural areas particularly regarding mother/child health by creating awareness about the adversities of population explosion.
- Establishment of rehabilitation centers for Drug Addicts and create awareness among youth regarding drug Abuse.
- Provisions of burn cure facilities to the affected burnt patients.
- Establishment of SAFE MOTHER HOME to reduce infant & mother's mortality rate.

CURRENT PROJECTS

MASKAN - Old Age Home

SHADE Trust has established an old age home (Maskan) in 2013 for the senior citizens. Maskan is extending services to 4 million population of Sialkot.

Safe Mother Home - KRWH

KRWH is a focal point for mother and child health care facilities established in 2013. It provides basic health care to the mothers during pregnancy, childbirth, and the postpartum period & prevent Maternal mortality; Khushnood Rizvi Welfare Hospital is providing health facilities for mothers in need.

Provision of antenatal and postnatal care to the deserving, destitute and non-affording women of rural area of Sialkot.

Provision of health care facilities to the children of underprivileged and marginalized communities.

Blood Donation

In emergency cases, SHADE TRUST provides fresh and screened blood. Major volunteers are SHADE's own self-motivated members. SHADE TRUST collaborates with other donor societies. Blood grouping camps are set up from time to time to maintain a list of donors.

Ambulance Services

SHADE TRUST shares the burden of the needy patients for transportation of cadavers and terminally ill patients.

CRUSADE AGAINST "PATCH" DISEASES

Free medical camps are occasionally organized in neglected urban and rural areas by dedicated teams of doctors on routine basis. Treatment is provided for the diseases of eyes, gastro-intestinal problems, respiratory, Gynecological problems and skin ailments. Such camps are held under the supervision of specialist doctors.

SHADE TRUST has selected five diseases namely Polio, Aids, Tuberculosis, Breast Cancer and Hepatitis for a real crusade against them.

Polio

SHADE Trust's teams of doctors set up special camps on National Polio Days (NPD). Through this government- sponsored scheme, oral polio drops are given to infants and children in urban and remote rural areas.

AIDS

An awareness campaign against AIDS is being launched shortly.

Tuberculosis

Unfortunately, according to the latest WHO press release, Pakistan is one of 13 countries of the world where Multi-Drug Resistant Tuberculosis (MRD-TB) is on the rise. If appropriate and in time measures are not taken, the situation will become uncontrollable. In this connection SHADE TRUST is

providing free Anti-tuberculosis treatment to diagnosed TB patients, through its dispensaries.

SHADE TRUST is providing free Anti-tuberculosis treatment to diagnosed TB patients, through its dispensaries. Advocacy regarding the issue through media, print material and digital media is also being carried out.

Breast Cancer

Life-long chemotherapeutic treatment for CA breast is being given to many women who are registered with SHADE, on routine basis. In addition, measures to avoid development of cancer & early self-detection are taught in special women gatherings. Awareness campaign against breast cancer is being launched.

Hepatitis

A country-wide awareness campaign against the disease has been launched by SHADE. Besides attending TV talk shows and writing articles in newspapers, printed materials are available in local and English language for those who wish to know in detail about the disease, its symptoms, prevention treatment. SHADE's senior doctors who specialize in this field, give lectures in seminars conducted at different cities, schools, colleges, chambers of commerce and Industries, stock exchanges, different public gatherings.

● CLEANLINESS DRIVE

● FIGHT AGAINST CHILD LABOUR

● PROTECTION OF BASIC HUMAN RIGHTS

● STIPENDS FOR DESERVING STUDENTS

FUTURE PLANS AND PROJECTS

SHADE Trust Burn Center (SBC)

Pakistan has a very high morbidity and mortality rate of burnt patients. Those receiving around 30-40% burn injuries seldom survive, while in developed countries, patients with even 80% and above have a satisfactory rate of survival.

At the moment, not a single hospital caters for the specialist burnt treatment in Pakistan. Adding to this fact it is our socio-economic set up where there is an increased incidences of burn cases especially among women folk in rural areas and in chemical industries where there are no safety measures for the laborers or any laws to punish the offenders. SHADE Trust's future priority is setting up a specialized center for the treatment and rehabilitation of burnt cases - a cosmetic surgery unit will also be added to this center later.

Psychiatric Treatment Centers

Psychotherapy and Treatment Centers will be established for psychiatric patients at hospitals where feasible.
